What Is ProJeCt?

ProJeCt envisions a community where people can realize their potential and achieve self-sufficiency not limited by economic disadvantage, language and learning differences, under-education, home environment or poverty. Our goals are to help people prepare to learn and to provide effective educational interventions.

A PERFECT PARTNERSHIP

How does CWP work with ProJeCt?

Lafayette College Writing Associates (WAs) work one-on-one with GED and ESL students to improve communication and academic writing skills. WAs help to reinforce ProJeCt’s lessons through CWP-style conferences where students take authority over their writing. This self-direction fosters understanding and appreciation of academic writing.
